## THE GENTLE WAY OF LIFE IN PROVENCE

At the far end of a cypress trees path, an 18th Century building formerly known as the Château unveils itself right in front of your eyes with overlooking countryside and a magnificent panoramic view. Between nature and modern luxury, discover this exceptional refuge offering quietness, well-being and refinement.

Located in the very heart of a 15 acres estate, between wines and olives groves, Les Lodges Sainte Victoire is also two steps away from the famous Mount Sainte Victoire which so inspired Paul Cezanne, near a village where the painter often resided.
